

Fireproof sealing of cables entering and exiting the distribution box

Overview

Fire protection sleeves: These are fitted around cables and expand in the event of a fire to seal the openings and prevent the spread of fire. For almost 70 years, new concepts and systems for preventive fire protection. Roxtec cable and pipe entry seals provide certified protection against multiple hazards – including smoke and fire. The fire-resistant penetration sealing system secures an efficient fire barrier. It is tested and approved by certifying authorities all over the world to ensure passive fire. The System Cable Tube is a particularly easy-to-install cable box made of two pipe half-shells with a click lock and an inner fire protection fabric. Suitable as a fireproof penetration sealing system for electrical cables and lines of all types, electrical installation conduits, and HVAC split. Alternative product: Fire Rated Foam B1 296 is a fire-resistant PU strawfoam for installing and sealing fire-proof doors, windows, walls and other sealing works in places with heightened fire safety requirements. Easy-to-install, flexible firestop foam for the firestopping of cable and mixed penetrations.
