

How much does a 24-core fiber optic cable cost per meter

Overview

Fibre optic cables are the preferred choice for high-speed, high-bandwidth, and long-distance transmission.

Key Takeaways

A 24-core fiber optic cable typically costs between \$1.20 and \$3.50 per meter, depending on fiber type and cable construction.

- Single-mode 24-core cable: \$1.50 to \$3.50 per meter, generally used for long-distance communication due to low signal attenuation .
 - Multimode 24-core cable: \$1.20 to \$3.00 per meter, suitable for shorter distances such as within buildings or campuses .
 - ADSS (All-Dielectric Self-Supporting) 24-core cable: \$0.80 to \$1.50 per meter, designed for outdoor utility-grade applications without metallic components .
- Factors Affecting Price
- Cable Construction:
 - Armored cables include metal layers for mechanical protection, increasing costs.
 - Loose-tube cables are ideal for outdoor or underground installations and are more expensive than indoor tight-buffered cables .
 - Indoor tight-buffered cables are simpler and lighter, making them less costly.

- Fiber Material and Quality:
 - Glass fiber cores are standard for high-speed, long-distance transmission and cost more than plastic alternatives .
 - Premium brands (e.g., Corning) may command higher prices due to lower attenuation and reliability .
- Environmental Ratings:
 - Outdoor-rated jackets (PE, UV-resistant) or flame-retardant coatings increase the price.
 - Armored or direct-burial cables can add 20–50% to the base cost .
- Market and Regional Factors:
 - Prices fluctuate with raw material costs, exchange rates, and technological advancements .

Practical Considerations

When budgeting for a 24-core fiber optic cable, consider total project value rather than just the per-meter cost. Factors like installation complexity, pre-terminated assemblies, and long-term durability can influence overall expenses. For standard indoor or campus deployments, expect to pay around \$1.50–\$2.50 per meter, while specialized outdoor or armored cables may approach \$3.50 per meter .
