

How much does a vertical cable tray cost in Oman

Overview

Ladder Type Cable Tray System is a Prefabricated Side Rails connected by Rungs as Transverse Elements.

Key Takeaways

The cost of vertical cable trays in Oman typically ranges from OMR 15 to OMR 60 per meter, depending on material, type, and load capacity.

- **Material:** Vertical cable trays are commonly made from galvanized steel, stainless steel, aluminum, or FRP/GRP. Steel trays are generally more affordable, while stainless steel and FRP/GRP are more expensive due to corrosion resistance and durability .
- **Type of Tray:** Options include ladder type, perforated, wire mesh, and solid bottom trays. Ladder trays are widely used for heavy-duty applications and provide better ventilation, which can slightly increase the cost .
- **Load Capacity and Size:** Larger trays designed to carry heavier cables or multiple layers of wiring cost more. Vertical trays that support multiple floors or high-rise installations may require additional fittings and supports, increasing the overall price .

- Accessories and Fittings: Elbows, tees, reducers, and brackets are necessary for vertical installations. These accessories can add 10-20% to the base tray cost .

Typical Price Range

- Light-duty aluminum or steel vertical trays: OMR 15-25 per meter
- Medium-duty galvanized steel or perforated trays: OMR 25-40 per meter
- Heavy-duty stainless steel or FRP/GRP trays: OMR 40-60 per meter

Suppliers in Oman

Some trusted suppliers include:

- Albustan Technical Supplies LLC - Offers a full range of cable trays and accessories suitable for industrial and commercial projects .
- Cable Tray Trading - Supplies ladder, trunking, and perforated trays across Oman .
- Gulf Grating - Specializes in FRP/GRP, GI, SS, and aluminum trays for oil, gas, and power sectors . For precise pricing, it is recommended to contact suppliers directly with specifications such as tray material, width, height, and load requirements, as prices can vary based on project scale and customization.
