

## Mali Non-standard Distribution Box Models and Specifications

### Overview

Serving the Mali market requires a unique blend of engineering expertise and localized environmental adaptation.

### Key Takeaways

Non-standard distribution boxes in Mali include customized low-voltage switchgear, fiber-reinforced prepaid meter boxes, and modular enclosures with high IP and impact protection ratings.

Types and Models

- Metal-Clad Draw-Out AC Enclosed Switchgear (GZS1 type)
- Indoor complete power distribution device suitable for industrial, mining, residential, and high-rise buildings .
- Used in power plants, substations, and commercial facilities.
- Provides reliable energy distribution with modular design for easy maintenance.
- Prefabricated Substations (ZBW□ type)
- Combines high-voltage switchgear with low-voltage distribution equipment .
- Ideal for scenic areas, green spaces, and industrial applications.
- Offers compact, integrated solutions for power reception and distribution.

- Low-Voltage Distribution Panels (GGD, GDH, PGL series)
- GGD series: AC 50Hz, rated voltage 380V, high breaking capacity, stable performance .
- GDH and PGL series: Low-voltage fixed switchgear for industrial and commercial use.
- MNS series: Compact, stable, widely used in small power plants, hotels, and buildings.
- Low-Voltage Withdrawable Switchgear (GCK, GCS series)
- GCK: AC 60Hz, 660V, suitable for motor control and lighting equipment .
- GCS: AC 50Hz, 400V, used in high-consumption areas like power plants and high-rise buildings.
- SMC Prepaid Meter Boxes (DTSY1598)
- Made from fiber glass reinforced polyester, self-extinguishing at 960°C, heat-resistant up to 125°C, UV-resistant .
- IP54 protection, high impact resistance (IK10), accommodates 1 three-phase meter, 1 four-pole circuit breaker, and 4 fuse holders.
- Features transparent window, lockable access, wall or pole mounting, and triangle screw sealing.
- Compliant with EDF HN 60 E-01, 02, 03, EDF HN 62 S-15, and EDF HN 60 E-80 standards.
- Stainless Steel Distribution Boxes (VIOX)
- Available in 201, 304, and 316 grades for indoor and outdoor use .
- High IP ratings for dust and water protection, flame-retardant materials, modular design for easy maintenance.
- Equipped with bus bars, circuit breakers, fuses, residual current devices, and surge protection devices.
- Ergonomic design with cable entry points and quick-access panels.

#### Key Specifications

- Protection Ratings: IP54 to IP65 for dust and water resistance.
- Impact Resistance: IK10 for high durability.
- Materials: Fiber glass reinforced polyester, stainless steel (201, 304, 316), flame-retardant ABS.
- Mounting Options: Wall-mounted, pole-mounted, or integrated modular setups.

- Applications: Industrial plants, commercial buildings, residential complexes, scenic areas, and prepaid metering systems. These non-standard distribution boxes in Mali provide customized solutions for diverse electrical distribution needs, combining safety, durability, and adaptability to local environmental conditions.
