

New Huijue Terminal Box with 4 Ports

Overview

Indoor/outdoor FTTH fiber termination for residential buildings, villas, and small commercial units.

Key Takeaways

The New Huijue Terminal Box with 4 ports is a compact, durable fiber optic or electrical junction box designed for secure and organized cable management. Key Features

Port Configuration: The box supports 4 ports, suitable for FTTH (Fiber to the Home) applications or small-scale network installations. It can accommodate RJ45 connectors, SC or ST adapters, and fiber optic patch panels, making it versatile for hybrid optical and electrical cabling . **Material and Protection:** Constructed from stainless steel or corrosion-resistant materials, the box is designed for durability and long-term use. Many models feature IP65-rated waterproofing, ensuring protection against dust and water ingress, which is ideal for both indoor and outdoor environments . **Design and Installation:** The box often uses a self-clipping cover and bottom design, simplifying installation and maintenance. It can be wall-mounted or pole-mounted depending on the deployment site, and its compact size makes it suitable for limited-space installations . **Applications:** The 4-port Huijue terminal box is commonly used in telecommunication networks, FTTH deployments, and small-scale fiber optic distribution systems. It provides a secure interface for connecting and managing multiple fiber or electrical lines, ensuring organized cable routing and protection from environmental factors . **Manufacturer and Quality:** Huijue Network Communication Equipment Co., Ltd., headquartered in Shanghai, is a high-tech provider of network communication equipment with over 20 years of experience. The company maintains strict quality control, multiple production lines, and has exported products globally, ensuring reliability and compliance with industry standards .

Additional Considerations

- **Adapters and Connectors:** Supports SC/ST adapters and RJ45 connectors for flexible network configurations.
- **Durability:** Suitable for harsh environments due to corrosion-resistant materials and IP-rated protection.
- **Compact Size:** Ideal for mini fiber optic patch panels or small junction points.
- **Integration:** Can be used alongside outdoor cabinets, energy storage systems, or base station enclosures for comprehensive network setups . The New Huijue Terminal Box with 4 ports is a reliable solution for both residential and commercial fiber optic or electrical installations, offering versatility, protection, and ease of installation.
