

Price of 2al distribution box

Overview

Lwuey 2 Way Breaker Box, IP65 Waterproof DIN Rail EnclosureOur 2 din rail power distribution junction box and din enclosure box are designed for convenient.

Key Takeaways

The price of a 2AL complete distribution box typically ranges from \$50 to \$250 per unit, depending on specifications, materials, and installation requirements.Pricing Overview

A 2AL distribution box, which is a type of two-way or double-circuit distribution box, is designed to distribute electrical power safely to multiple circuits in residential, commercial, or light industrial settings . The cost depends on several factors:

- **Material:** Metal boxes (steel or aluminum) generally cost more than plastic enclosures due to durability and grounding protection .
- **Amperage and Voltage Rating:** Higher capacity boxes for three-phase or heavy-duty applications are more expensive.
- **IP Rating:** Weatherproof or outdoor-rated boxes carry a premium for water and dust resistance .
- **Installation:** Labor costs vary by region and complexity, typically ranging from \$75 to \$125 per hour, with total installation adding \$50-\$200 to the material cost .

- Customization: Options like busbar modifications, labeling, or integration with building management systems can increase the price .

Typical Price Range

- Basic indoor 2AL box: \$50-\$100 for the unit alone.
- Mid-range with metal construction and standard safety features: \$100-\$180.
- High-end or outdoor-rated complete units with installation: \$180-\$250 or more .

Additional Considerations

- Bulk orders or wholesale purchases can reduce per-unit costs .
- Ensure compliance with local electrical codes and certifications for safety.
- Consider long-term value: boxes with advanced monitoring or energy management features may have higher upfront costs but offer operational savings . For precise pricing, it is recommended to contact suppliers or distributors with your specific requirements, including amperage, material, and installation location, to get a tailored quote.
