

Price of essential cable trays for computer rooms

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Cable trays for computer rooms typically range from \$13 to over \$200 depending on material, size, and design.

Price Ranges by Type and Material

- Under-desk or small wire trays: These are suitable for managing cables at individual workstations. Prices start around \$13-\$14 for metal or plastic trays with adhesive or screw mounting options, available at retailers like Walmart .
- Wire mesh or basket trays: Common in server rooms for flexible cable routing and ventilation. Prices vary widely, typically \$50-\$150 depending on length, width, and load capacity .
- Ladder-style trays: Designed for heavy power and data cables, often made of steel or aluminum. These can cost \$100-\$250 or more for longer sections or stainless steel versions .
- PVC or plastic trays: Lightweight and corrosion-resistant, suitable for indoor computer rooms. Prices generally range from \$20-\$100 depending on size and quality .

- Stainless steel or hot-dip galvanized trays: High durability and corrosion resistance, ideal for long-term installations in server rooms. Prices can exceed \$200 for premium sections .

Factors Affecting Price

- Material: Steel, aluminum, stainless steel, PVC, or halogen-free plastics influence cost and durability .
- Design: Ladder, wire mesh, basket, or single rail designs affect both price and cable management efficiency .
- Size and Load Capacity: Longer trays or those designed to carry heavy power/data cables are more expensive .
- Standards Compliance: Trays meeting DIN EN 61537 or IEC standards for safety and accessibility may cost more but ensure reliability in professional computer room setups .
- Installation Features: Pre-drilled holes, modular sections, and mounting accessories can add to the overall cost .

Where to Buy

- Amazon: Offers a variety of server room cable trays with different materials and sizes .
- Walmart: Provides affordable under-desk and small cable management trays starting around \$13 .
- RS Components / RS PRO: Supplies professional-grade trays including ladder, wire mesh, and stainless steel options with technical datasheets and fast delivery .
- Specialized Suppliers (e.g., Ekabel24): Focus on industrial and commercial-grade trays compliant with international standards .

In summary, for a computer room, small under-desk trays can cost as little as \$13, while high-quality stainless steel or ladder trays for server rooms can exceed \$200 per section, depending on material, size, and compliance requirements. Choosing the right type depends on cable load, ventilation needs, and long-term durability.
