

Price of parallel cable tray combination

Overview

Cable Tray & Accessories WBT Performance Cable Tray, Shaped 4"X8"X118", Pregalvanized. Provides optimal support for high-performance data cable, up to Cabl.

Key Takeaways

Parallel cable trays typically range from \$10 to \$150 per meter depending on material, size, and design.

Price Range by Material and Type

- Galvanized Steel Cable Trays: Common for industrial and commercial use, prices generally range from \$15 to \$50 per meter for standard ventilated or ladder designs, with heavy-duty versions costing up to \$100 per meter .
- Stainless Steel Cable Trays: Offer superior corrosion resistance, ideal for harsh environments, priced between \$50 and \$150 per meter depending on grade (304 or 316) and load capacity .
- Aluminum Cable Trays: Lightweight and corrosion-resistant, typically \$30 to \$80 per meter .
- PVC or Halogen-Free Plastic Trays: Used for indoor or low-load applications, usually \$10 to \$40 per meter .

Factors Affecting Price

- Tray Design: Ladder, perforated, wire mesh, or single rail designs influence cost. Ladder trays for heavy power cables are more expensive than wire mesh or basket types .

- **Load Capacity:** Higher load-bearing trays require thicker metal or reinforced structures, increasing price.
 - **Length and Width:** Wider or longer trays cost more due to material usage. Standard widths range from 100 mm to 600 mm.
 - **Certifications and Standards:** CE, DIN EN 61537, and IEC compliance may slightly increase cost but ensure safety and regulatory adherence .
 - **Supplier and Bulk Orders:** Industrial suppliers like Alibaba or McMaster-Carr offer bulk discounts, while retail or specialty suppliers may charge higher per-unit prices .
- Market Trends

The global cable tray market is growing due to infrastructure development, data center expansion, and renewable energy projects. This growth has slightly increased prices over recent years, especially for high-quality stainless steel and modular systems .

Supplier Options

- **Alibaba:** Wide range of industrial cable trays with CE certification, including galvanized, stainless steel, and aluminum options .
- **McMaster-Carr:** Offers over 850 cable tray products with same or next-day delivery, suitable for both commercial and industrial projects .
- **Ekabel24 and RS Online:** Provide high-quality trays with detailed specifications, including halogen-free and corrosion-resistant options .

When budgeting for parallel cable trays, consider material, design, load requirements, and supplier to select the most cost-effective and compliant solution.
