

Seeking to purchase European-style trapezoidal cable trays

Overview

Eurostrut Cable Trays | cable tray, cable route and NATO tray Cable trays for industrial and marine use. Includes distribution trays, cable routes and NATO.

Key Takeaways

Trapezoidal European-style cable trays are available in stock from suppliers like Eurotray and Eurostrut, designed for heavy-duty cable management in industrial and commercial installations.

Trapezoidal cable trays, commonly used in European-style installations, are engineered to carry and protect electrical cables safely along planned pathways. These trays are particularly suitable for high-load applications, including low, medium, and high voltage cables, and are often used in data centers, industrial facilities, and food manufacturing plants where cable heating and hygiene are critical (Eurotray, Eurostrut) .

Key Features

- **Material Options:** Typically made from hot-dip galvanized steel, stainless steel, or halogen-free plastics, ensuring durability and compliance with DIN EN 61537 and international standards .
- **Design:** The trapezoidal shape provides enhanced load-bearing capacity and allows for vertical and horizontal installations, making it ideal for complex routing and raised floor applications .

- **Ventilation and Access:** Open tray design promotes airflow, reducing heat buildup, and allows easy access for maintenance or future cable expansion .
 - **Accessories:** Complete systems include mounting supports, connection parts, fittings, and grounding components, ensuring safe and compliant installation .
- Applications**
- **Industrial Facilities:** Heavy power and control cables in manufacturing plants.
 - **Data Centers:** High-density cabling with efficient cooling and accessibility.
 - **Commercial Buildings:** Electrical and communication cable management.
 - **Special Environments:** Food processing or areas requiring strict hygiene standards.
- Suppliers and Stock**
- **Eurotray:** Offers a wide range of trapezoidal cable trays with all necessary mounting and connection components, suitable for turnkey installations .
 - **Eurostrut:** Provides high-quality cable trays and ladders with fast delivery from stock, including solutions for industrial, marine, and offshore applications .
 - **Ekabel24:** Supplies various cable tray types, including perforated and ladder styles, meeting DIN EN 61537 standards . These suppliers maintain ready-to-ship stock, making it feasible to procure trapezoidal European-style cable trays promptly for ongoing projects. For exact availability, dimensions, and load ratings, it is recommended to check the supplier websites or contact their sales teams directly.
