

South African floor-standing network cabinet manufacturer

Overview

Network Cabinets — Best Deals in South Africa at ProgenixLinkbasic 42U Floor Standing Network Cabinet, 600mm x 1000mm, 4 Fans, 3 Shelves Scoop's CAB-42U, 4.

Key Takeaways

CPS Technologies, Actsys, Miro, Progenix, and Axil Distribution are leading South African manufacturers and suppliers of floor-standing network cabinets. Key Manufacturers and Suppliers

CPS Technologies is a prominent South African manufacturer offering a wide range of server and network cabinets, including heavy-duty cabinets capable of supporting loads over 1.2 tonnes. They provide outdoor and climate-controlled (IP55) cabinets suitable for large-scale fiber projects and industrial applications, with customization options for specific client requirements across South Africa and other African countries . Actsys supplies floor-standing cabinets made from cold-rolled steel, available in sizes from 13U to 47U with depths ranging from 600mm to 1000mm. They also offer tailor-made cabinets for data centers and industrial network rooms, ensuring durability and compliance with international environmental standards . Miro provides floor-standing cabinets with perforated doors and side panels for optimal airflow, available in 18U and larger sizes. Their cabinets are designed for server rooms and data centers, with robust steel construction and easy assembly options . Progenix offers free-standing network cabinets from brands like Linkbasic, including 27U and 42U high-strength steel cabinets with options for fans and ventilation, suitable for data communication and IT infrastructure . Axil Distribution manufactures and supplies free-standing server cabinets such as 42U racks, available flat-packed or fully assembled. Their cabinets include features like lockable castor wheels, vented doors, and blanking panels for effective cooling and protection against dust and debris .

Considerations for Choosing a Manufacturer

- **Load Capacity:** For heavy server setups, CPS Technologies provides cabinets capable of supporting over 1.2 tonnes .
- **Environmental Protection:** IP55-rated cabinets from CPS Technologies and Miro offer protection against dust and moisture for outdoor or industrial installations .
- **Customization:** Actsys and CPS Technologies offer tailor-made cabinets to meet specific size and compartmentalization requirements .
- **Airflow and Cooling:** Perforated doors and blanking panels in Miro and Axil cabinets help maintain optimal airflow and temperature control . These manufacturers provide a comprehensive range of floor-standing network cabinets suitable for data centers, office networks, and industrial environments, with options for both standard and custom configurations.
