

Waterproofing of distribution boxes and cabinets

Overview

A robust waterproof distribution box shields sensitive components from moisture, dust, and mechanical impacts. This guide primarily analyzes structural engineering characteristics, technical specifications, and actual installation procedures to achieve optimal field performance. Built with durable materials, CE & ROHS certified. Contact us for custom solutions! The Orion+ waterproof enclosures and cabinets, rated IP65 or IP66, made of metal or polyester, are designed for general use and are suitable for the most extreme conditions (chemical aggressiveness, humidity, outdoor use, etc.). The internal equipment can be mounted on a back plate or using modular. Improving the sealing quality of Powbinet is not simply to block rainwater, but more importantly to maintain a dry environment for internal electrical components amidst complex climate fluctuations.
