

Where can I buy mesh cable trays in Italy

Overview

Cable Tray In Italy, Cable Tray Manufacturers Suppliers Italy Looking to buy a Cable Tray in Italy?

Jeetmull Jaichandlall (P) Ltd. is one of the trustworthy.

Key Takeaways

Italian mesh cable trays are available from leading manufacturers such as Spina Group, FEMICZ, Schiavetti Tekno, and Sati Italia, offering versatile, ventilated, and standards-compliant solutions. Key Italian Suppliers

1. Spina Group / Schiavetti Tekno Spina Group, through Schiavetti Tekno, provides a wide range of wire mesh cable trays in galvanised, stainless steel, or electro-zinc finishes. Their systems include straight elements, shelves, connectors, and covers, fully compatible with other tray systems. These trays are designed for industrial and instrumentation installations, ensuring optimal airflow, easy cable routing, and reduced heat accumulation. Accessories such as floor supports, suspension brackets, and universal clips are available for flexible assembly. Products comply with European (EN) and international standards . 2. FEMICZ FEMICZ offers metallic mesh trays that are lightweight, practical, and well-ventilated. Their MTC-Italy quick coupling series allows fast installation without connection clamps, and the trays can be easily modified on-site for bends, branches, or drop-offs. The system supports high current intensities due to improved cable cooling and is suitable for environments requiring lightweight and adaptable cable management . 3. Sati Italia S.p.A. The S2 Line mesh cable trays from Sati Italia provide a complete system with covers, shelves, and quick joint accessories. They are available in electrolytic galvanized steel, hot-dip galvanized steel, and stainless steel (AISI 304). The trays feature snap-on covers and secure joints for fast, tool-free installation, and comply with IEC/EN 61537 standards. Mesh dimensions are typically 100 x 50 mm, supplied in 3-meter bars . 4. B2B Marketplaces For broader sourcing, platforms like Europages list multiple Italian suppliers of standard mesh cable trays, allowing direct contact with wholesalers and manufacturers for bulk orders or custom solutions .

Considerations When Choosing Italian Mesh Cable Trays

- **Material:** Stainless steel, galvanised, or electro-zinc depending on corrosion resistance needs.
- **Installation:** Quick coupling or snap-on systems reduce installation time.
- **Standards Compliance:** Ensure trays meet IEC 61537, NEMA VE 1, or EN standards for safety and performance.
- **Customization:** Many suppliers offer custom sizes, bends, and accessories for complex cable routes.
- **Ventilation and Load Capacity:** Mesh trays provide better airflow and can support higher current cables compared to solid-bottom trays. These suppliers and systems provide reliable, high-quality Italian mesh cable trays suitable for industrial, infrastructure, and commercial projects, ensuring durability, flexibility, and compliance with international standards.
