

Which fiberglass cable tray is best in Argentina

Overview

CME standard product catalogue: grids, Escaglass cable trays, railings, sheets, marine ladders, drainage systems and more.

Key Takeaways

Top fiberglass cable trays in Argentina include Escaglass® by CME Argentina and GRP/FRP trays from EFG Composites, offering high corrosion resistance, durability, and easy installation. CME Argentina – Escaglass® Cable Trays

CME Argentina manufactures Escaglass® cable trays using Fiberglass Reinforced Composite Material (GFRP/PRFV) through pultrusion, providing excellent mechanical strength and long-lasting performance in corrosive environments. Key features include:

- Corrosion and UV resistance, suitable for outdoor and harsh chemical environments
- Non-conductive and maintenance-free, with pigment throughout the profile
- Lightweight, ranging from 7–16 kg per 3-meter section, facilitating installation
- Variety of resins: polyester isophthalic, vinylester, or special resins depending on environmental conditions
- Compliance with NEMA, UL, and NEC standards for non-metallic cable trays

- Customizable designs for industrial applications, including ladders, perforated trays, and covers

EFG Composites – GRP/FRP Cable Trays

EFG Composites offers ladder and perforated fiberglass cable trays designed for critical industrial environments . Highlights include:

- Pultruded fiberglass sections for cost-effective, high-quality performance
- Resin options: polyester fire retardant (FR-P) and vinylester fire retardant (FR-VE) for strong acids, alkalis, and halogenated solvents
- UV-stabilized surface veil for enhanced corrosion protection
- Wide range of sizes: thicknesses from 1.2 mm to 3.0 mm, widths from 50 mm to 1000 mm
- Accessories and fittings: bends, tees, reducers, coupler plates, and struts for complete cable management
- Durable and safe, replacing traditional G.I./M.S. trays prone to corrosion and heat issues

Advantages of Fiberglass Cable Trays

- Chemical and corrosion resistance: ideal for industrial plants, refineries, and laboratories
- Non-conductive: safe for electrical installations
- Lightweight and easy to install: reduces labor and structural support requirements
- Low maintenance: no painting or replacement needed
- Customizable: available in ladder, perforated, and covered designs with various fittings

Other Suppliers

Brilltech Engineers also supplies fiberglass cable trays in Argentina, offering perforated and solid trays with premium materials and compliance with industry standards . They provide technical support for installation and system design.

Recommendation

For high-quality, durable fiberglass cable trays in Argentina, Escaglass® by CME Argentina is ideal for long-term corrosion resistance and compliance with international standards, while EFG Composites provides versatile options for industrial applications with specialized resin systems. Both suppliers offer a wide range of sizes, fittings, and technical support to ensure reliable cable management solutions.
